

PM CHECKLIST

Daily Machine Inspection Checklist

Per-shift CNC machine checks

This is sample documentation generated for an Atlas CMMS demonstration environment. It mirrors the structure of a real OEM document but does not contain proprietary manufacturer content.

1. Inspection Items

- ☐ Coolant level and concentration checked / topped off
- ☐ Way covers wiped; no chips on guides
- ☐ No coolant / hydraulic / way-lube leaks
- ☐ Chip conveyor running freely; bin emptied
- ☐ Hydraulic oil level within sight glass range
- ☐ Air pressure at FRL within spec; bowl drained
- ☐ No unusual noise or vibration on startup

2. Sign-Off

Operator: _____ Shift: _____ Date: _____

Notes / issues found: _____
