

PM CHECKLIST

Monthly PM Checklist - VMC

Monthly preventive maintenance for vertical machining centers

This is sample documentation generated for an Atlas CMMS demonstration environment. It mirrors the structure of a real OEM document but does not contain proprietary manufacturer content.

1. ATC & Spindle

- ☐ Tool pockets cleaned; tool change alignment verified
- ☐ ATC arm lubricated per OEM
- ☐ Spindle taper inspected; drawbar operation checked

2. Safety

- ☐ Door interlocks tested
- ☐ E-stop circuit tested
- ☐ Chuck / guard interlocks verified

3. Sign-Off

Technician: _____ Date: _____
